

Innovation and Improvement Center

Emergency Medical Services for Children

EMSC Dissemination Committee Workshop

Charles G Macias MD, MPH

Executive Director, EIMC

August 2019

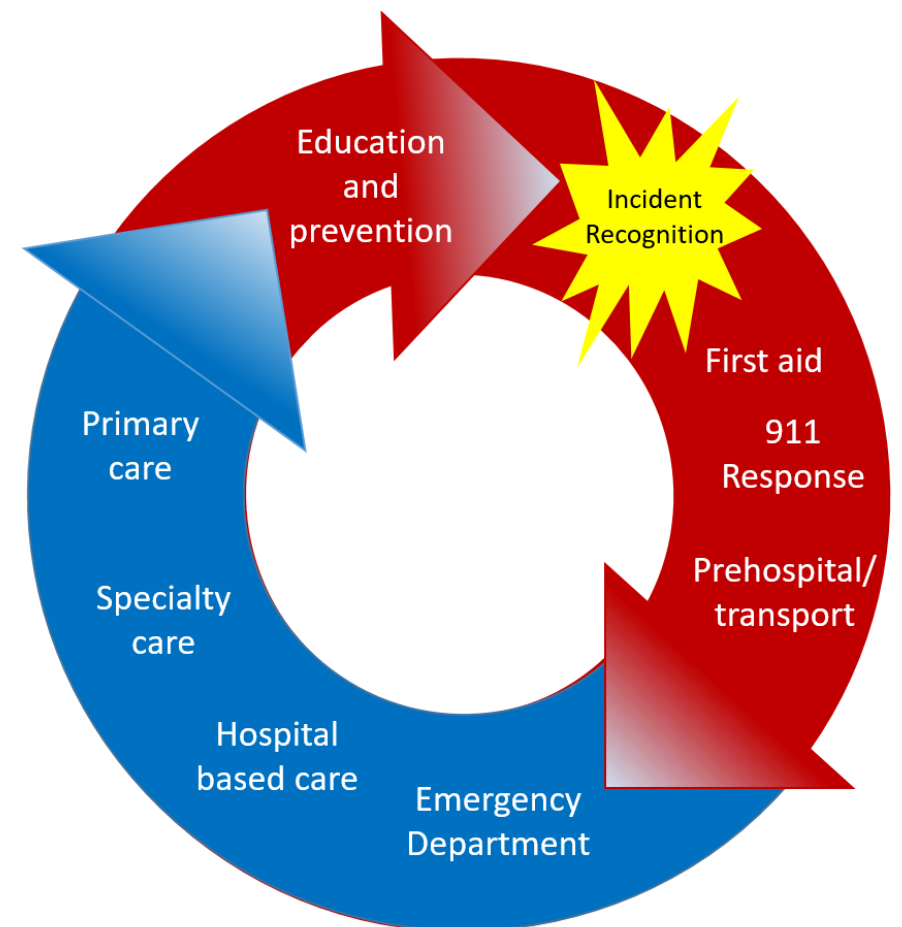

DISSEMINATION COMMITTEE

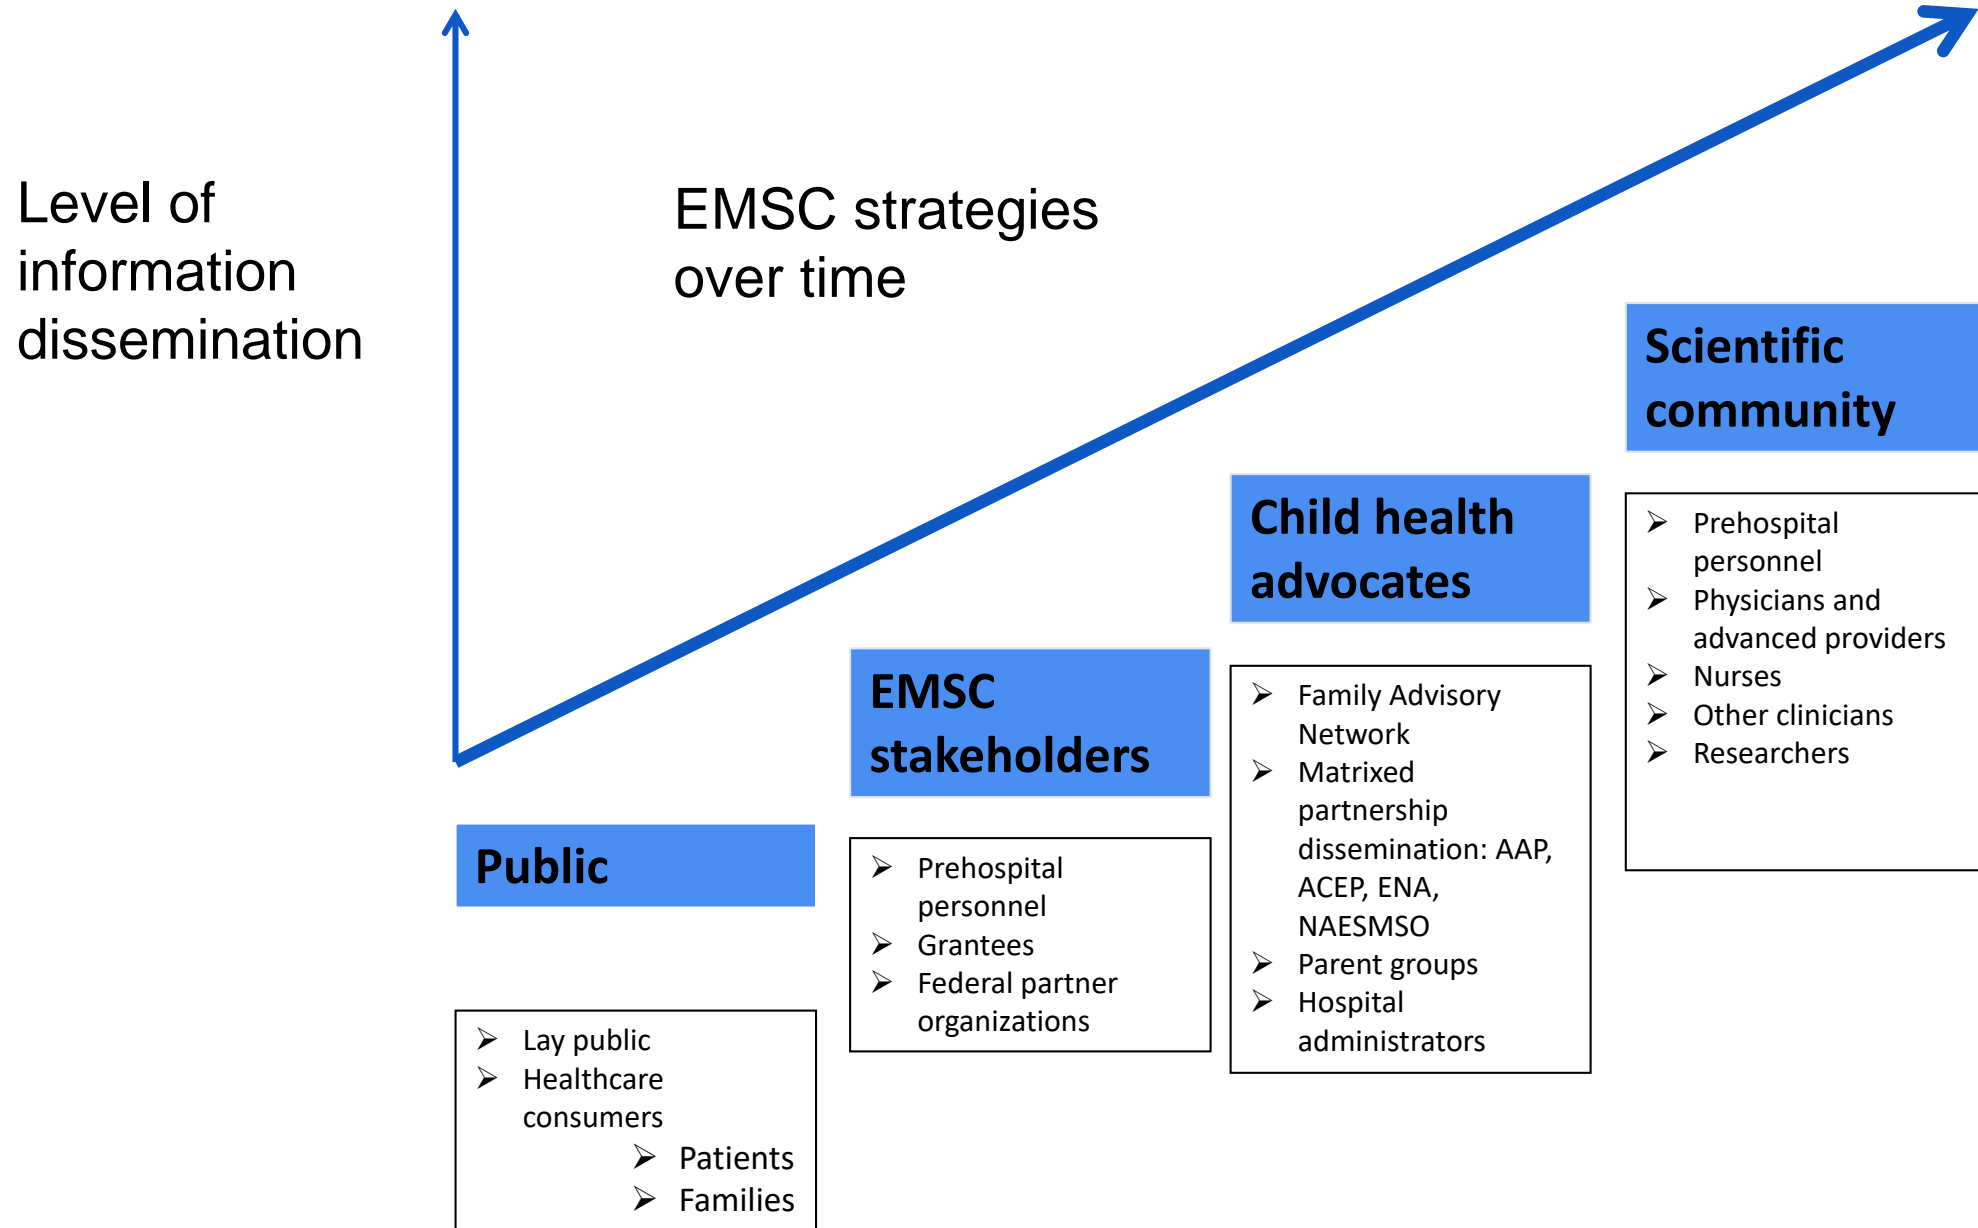

Introductions

EMS for Children: “ensuring healthcare is pediatric ready”

Goal: To develop and implement a national strategy for communication, dissemination and translation of relevant information regarding EMS for Children activities and discoveries.

Targeting personas

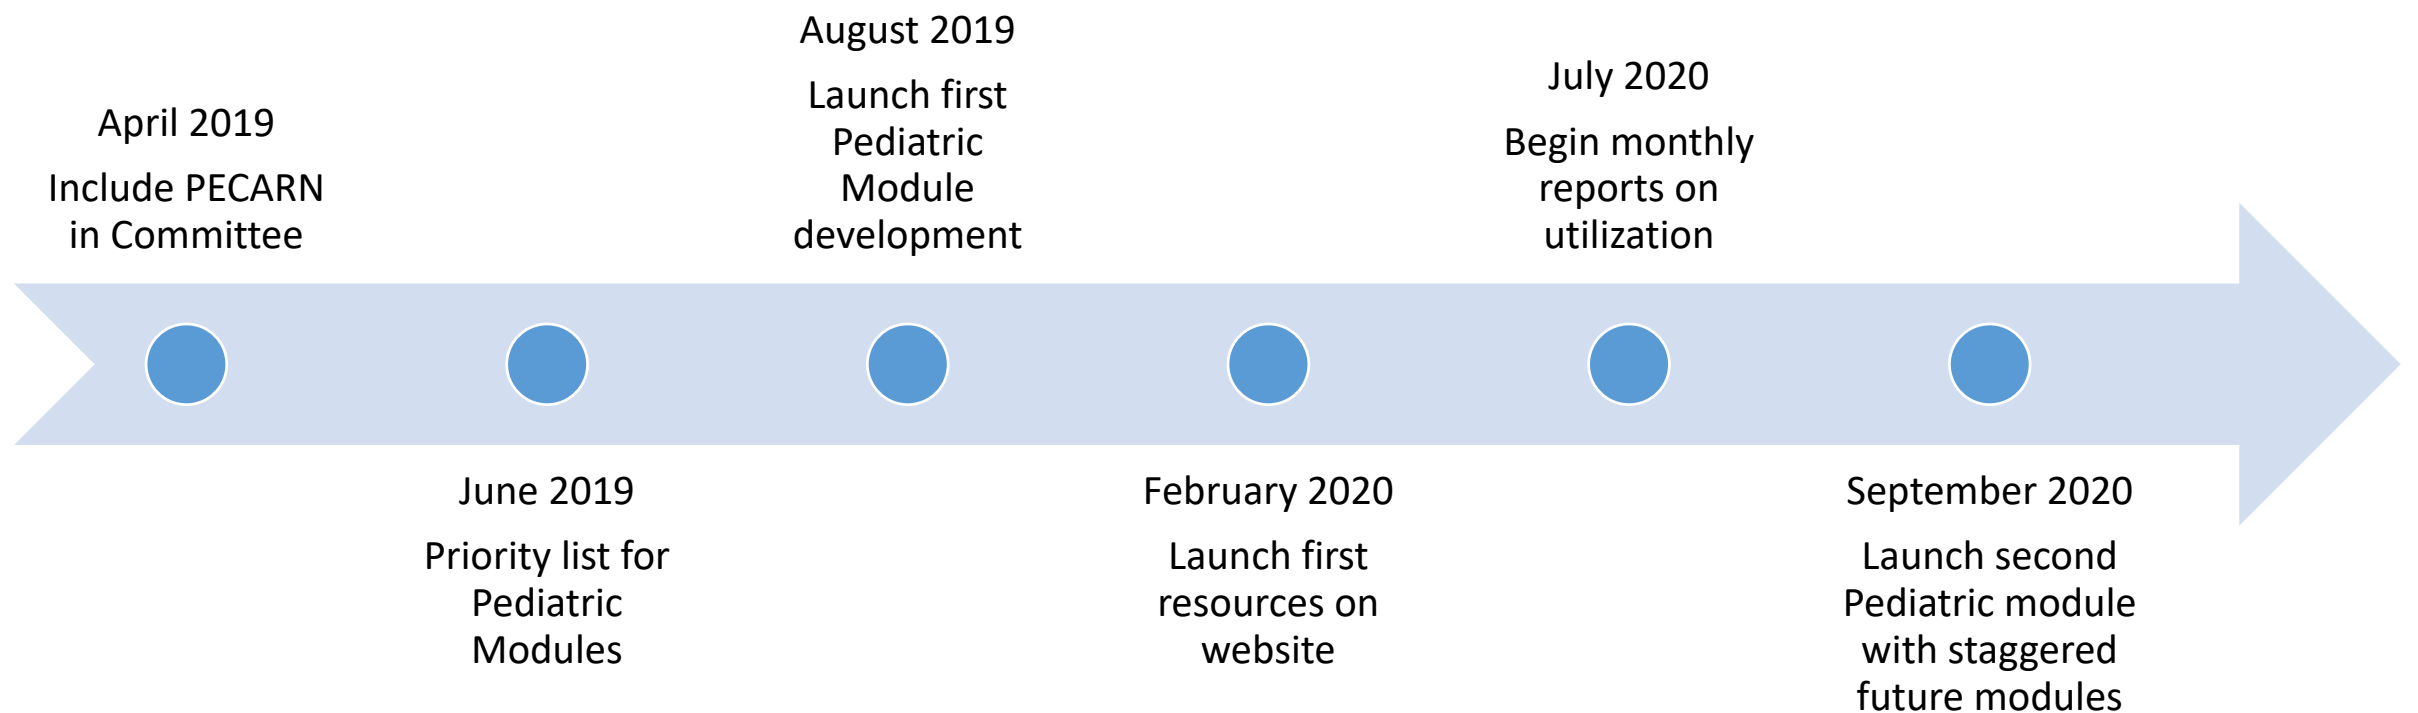

Web-based pediatric modules

- Algorithms/pathways
 - Evidence references
- Pocket cards
- Order sets
- Age/weight based drug binders
- Infographics (recommendations) for clinicians
- Infographics for patients/families
- Transfer checklists
- Triage poster
- Videos for families
- Videos for prehospital and hospital based providers
- Topic meetings linked to grantee meetings
 - Potentially simulation
- Mobile applications

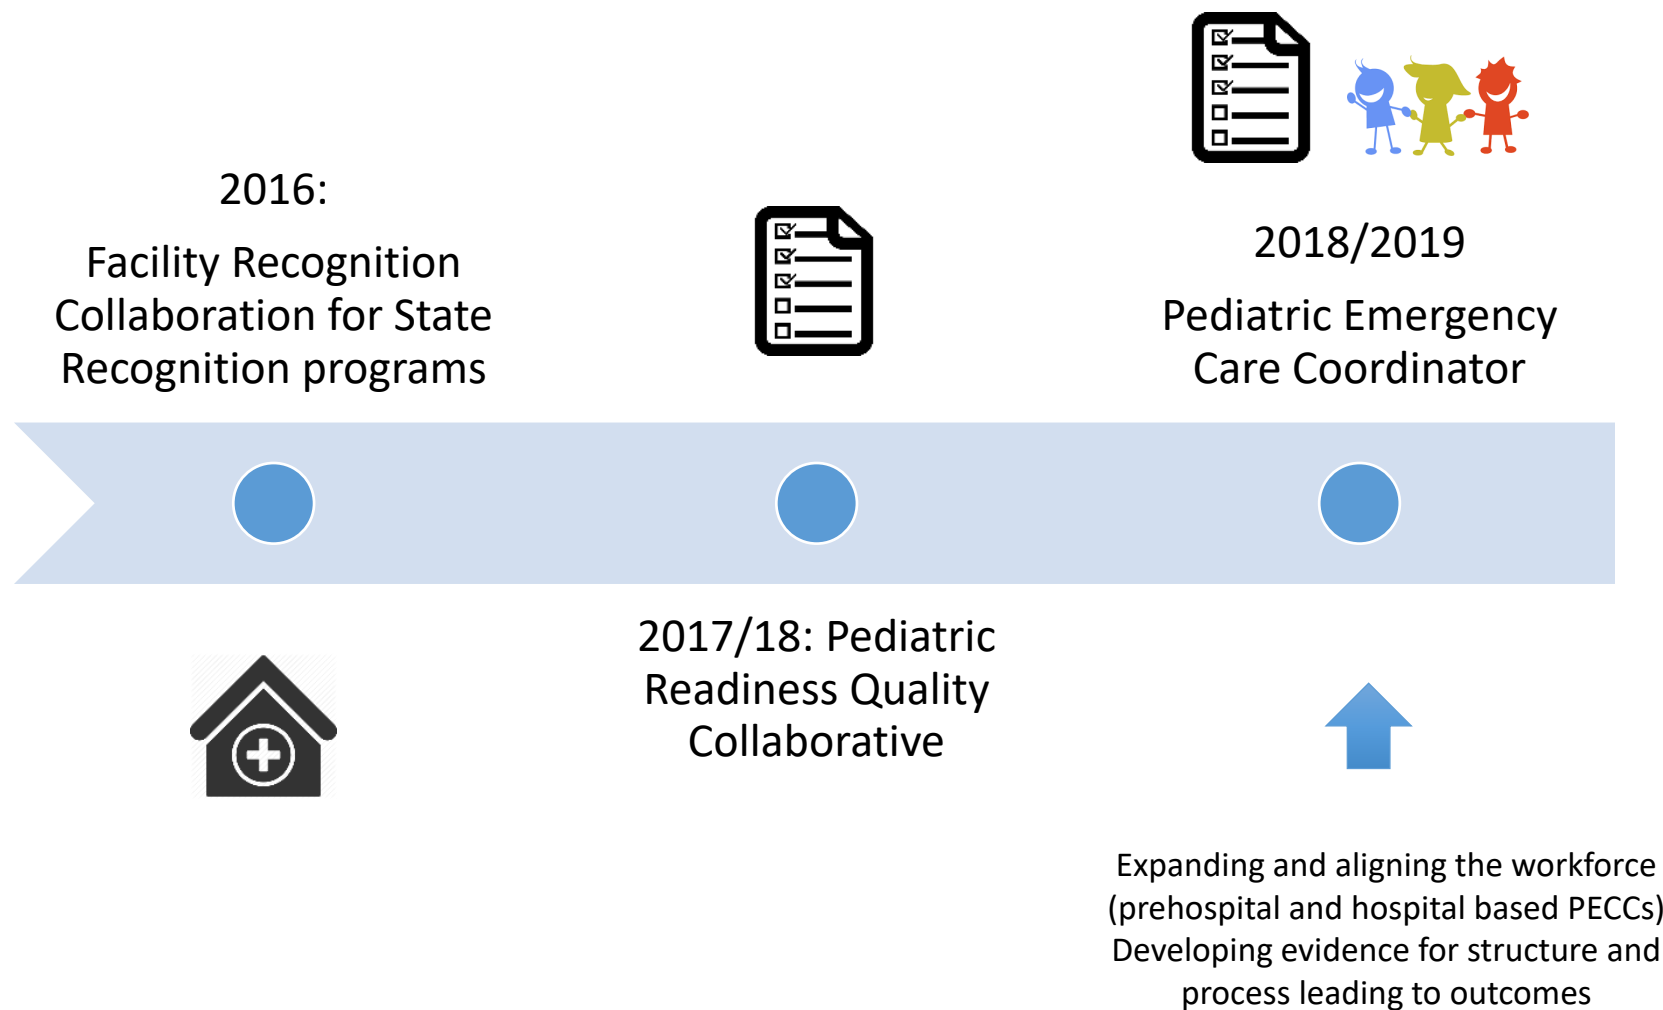

Priority survey to stakeholders

1. Pediatric Sepsis
2. Asthma
3. Status Epilepticus
4. Mental Health
5. Pain & Anxiety Management
6. Child Abuse
7. TBI
8. Multisystem Trauma
9. Cardiac Arrest
10. Diabetes

Pediatric Modules timeline

QI collaboratives: accelerating uptake

Today's workshop

Review background (environmental scan) and best practices

Purpose: define necessary strategies and tools given the priorities

Identify future stakeholders and platforms

Plan for Dissemination meeting in October 2-3, 2019
